

FULL STACK WEB DEVELOPER

Full-time Position

Hello! We are Centre Street Church, committed to making an impact peoples life's, our communities and in the world. How do we do that? By leading people to Jesus and helping them become fully devoted followers of Christ. That's the driving purpose behind everything we do.

Though we are a large church, at our core we are a network of small communities. These small communities function as extended families that support and challenge one another through discipleship. All of these communities networked together make us united as one large church that gathers weekly for worship over 8 services across 5 campuses.

We are looking for a **FULL STACK WEB DEVELOPER** to join us on this exciting journey God has us on.

Being part of our team means more means more than just being a developer - your ideas and input are not only welcomed but encouraged. We are looking for an individual who can learn the ins and outs of how our Rock Church Management System works and leverage that knowledge to help build ministry solutions.

If you love project management, and have excellent problem-solving skills, are self-motivated, have a continuous improvement mindset *and* are willing to do what it takes to get the job done ... read on! This job might be for you!

Primary Duties and Responsibilities:

- Build a new external website using Rock software
- Build a new staff intranet using Rock software
- Work with project managers to scope, schedule and execute project deliverables to meet ministry needs.
- Work with various ministry partners to develop solutions, this may include understanding their requirements, designing the solution, configuring software, testing, deployment and maintenance.

Core Skills/Experience:

- Project management background
- Javascript/CSS/HTML
- C#/SQL/Computer Programming
- Business Intelligence tools
- Experience in discovering and developing volunteers and/or staff

If you also have the following experience, you'd be an even stronger candidate!

- Rock RMS software
- Liquid templating language
- Microsoft PowerBI
- E-commerce (payment gateways)
- Creating process workflows
- Creating "How to Guides" for training purposes

Qualifications:

- Committed to living a "Jesus-shaped life"
- Understanding of what it means to be part of a church from a member and staff perspective; understanding of church culture
- Excellent communication skills
- Ability to problem-solve/troubleshoot "on the fly"
- Exceptional organizational and time/self management skills
- Possess a strong curiosity to learn and ask crucial questions
- Detail-oriented and ability to complete tasks quickly and effectively
- Excellent interpersonal skills and ability to respectfully deal with conflict

If you can check all the boxes above, we want to hear from you! Please apply by sending your resume and cover letter to HR@cchurch.ca.
